

Product Manager (m/f/d) Investor Relations

JOIN OUR TEAM!

Be the voice of the product in an international software development team! More than 8,000 clients worldwide trust EQS's products and services, including renowned companies such as adidas, Airbus and BMW. Your mission as Product Manager (m/f/d) is to play an active role in the further development of the new IR COCKPIT as one of the central EQS' SaaS product offerings.

EQS Group is a leading technology provider for digital investor relations and corporate compliance. During two decades we have developed into an international group with nine locations and over 400 employees worldwide – and achieved all of this without losing our start-up mentality.

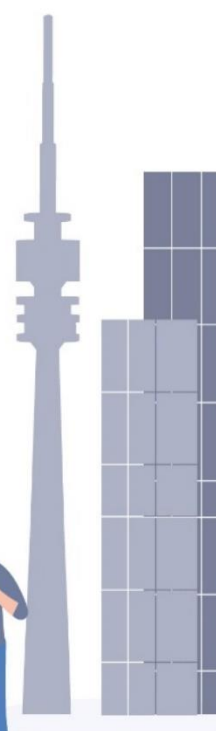

The key to our success is building high-performing teams. We focus on hiring passionate colleagues who take ownership and support each other in creating a trustworthy environment.

Your responsibilities:

- You work with an international team of skilled software engineers, quality analysts, and designers to realize your product vision
- You synthesize the needs of end-users, sales, and business leadership into key results and a clearly defined product roadmap
- You take ownership of the product backlog, ensuring that all the stories are clearly defined, estimated, and adequately prioritized
- You are constantly observing the international markets, client needs, and competitors not to miss any new trends or innovation potential
- You serve as the first point of contact for your product to stakeholders
- You identify and drive dependencies critical for your product's success in collaboration with other product owners and Scrum teams

What you should bring to succeed:

- Professional experience as a Product Manager or Product Owner in agile software development teams and understand that "Agile is a mindset, not a methodology."
- Excellent communication skills with a strong ability to influence and persuade stakeholders on your ideas and vision for the product
- Collaborating with anyone from the board to the software development intern is easy and natural for you
- Analytical mindset with joy in finding simple solutions to complex problems
- Strong skills in using JIRA and other product management tools
- Excellent English language skills, German is a plus

What you can expect from us:

- **You're important!** Our culture fosters trust and continuous improvement. You will benefit from personal development goals, support to achieve them, along with regular feedback from your team lead as well as access to internal and external training. We support you in setting yourself up for success.
- **Living our values!** We encourage you to take ownership for a wide range of tasks, explore the areas you like working on and where you can make the biggest impact.
- **Great atmosphere!** Regular company sponsored social events, a talented international team, and a common purpose that unites us.
- **Be part of an exciting journey!** You will contribute to our success story in becoming the leading European cloud provider for investor relations and corporate compliance solutions. With our share-matching share plan, you can also share in our success.
- **A modern workspace!** Our office is just 5 minutes away from the Munich main station. You also have the possibility of remote work and flexible working time.

Do you feel inspired to be part of our team? We are looking forward to receiving your application and getting to know you!
